DRISS BENKHALDOUN

Full-Stack Developer

About Me

Student enrolled in a dual degree program between ENSA Agadir and INSA Centre Val de Loire, I am currently working on my final year project as a Back-End Developer. I am seeking an opportunity in software development to showcase my passion and knowledge in this field.

FORMATIONS

INSA CENTRE VAL DE LOIRE
Engineering student specializing in cybersecurity and information technologies.
2022 - 2024

ENSA AGADIR
Software engineering student.
2018 - 2022

EXPERIENCES

Rakuten | Paris - France
February 2024 - August 2024

Occupying the position of back-end developer with the C2C team to migrate service providers' transporters from the platform to ShipEngine in order to make their management more dynamic, migrating project monolithic features to microservices, all based on hexagonal architecture, and working on platform maintenance.

Spot In Leads | Bourges - France
May 2023 - September 2023

Development of the SPOT MANAGER application on Android/iOS, aimed at centralizing and simplifying the management of companies' professional pages, including publications, messaging, and reviews across various social networks.

Nava Business | Agadir - Morocco
March 2022 - June 2022

Development of a web application for managing a fleet of vehicles, including legal module and interventions across all vehicles in the fleet.

ENSA | Agadir - Morocco
October 2021 - February 2022

Participation within a team of five students in specifying requirements, drafting the specifications document, designing, and developing a web-based business management application covering expenses, sales, purchase requests, inventory, clients, administrators, employees, and salaries.
